

We know you value the role KCR plays in creating a strong, stable community. You understand that when a family like Anne's struggles, it affects our entire community.

- When a young family faces the stresses of work, schooling from home, and tight budgets...
- When a veteran struggles to pay their medical bills....
- When a senior needs help with weatherizing their home to save money on a fixed budget...

TOGETHER we create hope and restore lives.

Please help us provide the critical support people like Anne and her daughters need to get back on their feet and flourish.

2,511 served through Housing Solutions Center

54 Individuals signed up to start own business

16 WorkFirst clients employed

3,427 applications processed for Energy Assistance; **69** homes weatherized

3,300 clients served monthly through WIC

1,980 individuals assisted with housing, eviction prevention, or rental assistance

41 families received early pandemic support funded 100% by community

Anne's story

In 2012, Anne, a single mother of two young daughters, fled an unhealthy relationship. She found shelter in KCR's Family Place. Eventually they were placed into permanent housing where they still reside today.

The family worked closely with KCR to stabilize, connect with available resources, and get medical help. Three years ago the girls, now teenagers, endured an extremely traumatizing situation. KCR provided extended emotional support, then and now.

With COVID-19, it was increasingly difficult for Anne to supervise her children's remote learning while balancing the health appointments for her daughters. She worked hard to rekindle her relationships with family who have rallied around each of them.

With KCR Housing assistance, she can afford to live near her family who supports them as they continue to heal and gain independence.

Working **TOGETHER** we can create a community where everyone, like Anne and her daughters, have the opportunity to thrive.
